

Closed Circuit Television (CCTV) can form an integral part of any Access Control or Parking Control system, particularly in industries like Self-Storage where the premises may be accessible 24 hours a day.

Whether you are looking to just keep an eye on a hallway, or even read a vehicle's license plate at night, the possibilities are virtually endless. And don't forget to keep evidence of the action with time-lapse or digital video recorders.

Easily integrated, a CCTV element must be considered for any new or existing operation. Modern Access Systems carries a full range of the most advanced CCTV equipment available today.

ACCESS TO PEACE OF MIND™

SECURITY • PARKING • ACCESS CONTROL
