# MOST

## MOST (Modern Self-Pay Terminal)

- Accepts payments, processes move-ins and move-outs, assigns gate/PIN codes
- Dispenses inventory items (with option)
- User-friendly interface with optional voice prompts
- Reads AAMVA DL/ID-2000 spec drivers' licenses

## Integrated Peripherals:

- Motorized reader for credit cards and drivers' licenses
- Signature pad with vector analysis — eSignature verifiable by a handwriting expert when compared to a written signature
- Bill Acceptor allows cash payments with \$1, \$5, \$10, \$20, \$50 and \$100 notes (USD and CDN options available)
- Prints payment receipts.
- Pinhole camera with video output connects directly to a DVR for constant imaging
- Standard 640x480 resolution camera takes pictures of customers
- 15" high brightness, high resolution, vandal resistant touch-screen LCD display
- Optional product dispenser for up to 2 different items (e.g. locks, access cards, etc.)
- Optional proximity card reader for facilities that use card access (supplements or replaces PIN codes)
- Optional intercom enables voice communication between staff and customers. Intercom can also be programmed to connect to up to 5 phone numbers, for after-hours functionality

## Technical Specifications:

- TCP/IP interface between MSE software and the terminal provides 100% up-to-date information to customers – also allows for the terminal to be in a different physical location from MSE (internet access required at both ends)
- Credit card authentication provided by host software
- User-administration is simple as all configuring is done in MSE

## Specifications:

<b>Housing</b>	Galvanized steel - 14ga/3mm (0.105in)
<b>Finish</b>	Powder-coated paint finishes, environmentally friendly and durable
<b>Power Requirements</b>	115V 15Amp
<b>Dimensions</b>	56cm W x 46cm D (36cm at base) x 163cm H (22" x 18" (14") x 64")
<b>Weight</b>	68kg (150 lbs)
<b>Temperature Range</b>	-30° to + 40°C (-22° to +104° F)
